

Estimate, then calculate

Stage 4 · Unit 3: Addition and subtraction of whole numbers

Advanced ★★★

Name: _____ Date: _____ Score: ____ / 14

Round each number to the nearest 100 to estimate. Use the inverse to check.

A. Estimate first, then calculate. Is your answer close to your estimate?

Calculation	Estimate (nearest 100)	Answer
468 + 315		
732 – 289		
596 + 247		
905 – 418		
354 + 479		
821 – 563		

B. Find the missing number.

7. ☐ + 245 = 600

8. 830 – ☐ = 470

9. ☐ – 175 = 425

10. 368 + ☐ = 1,000

11. 700 = 512 + ☐

12. 950 – ☐ = 395

C. Word problems

13. Galaxy Pool had 638 visitors on Saturday and 475 on Sunday. How many visitors came altogether?

14. How many more visitors came on Saturday than on Sunday?
