Name: _____ Date: _____

Unit fractions of quantities

Write the answer in the box. Some answers have a pick list.

1. There are 4 stickers. Find $\frac{1}{2}$ of them.

   💡 Hint: To find $\frac{1}{4}$, divide the amount into 4 equal groups.

   2

2. There are 4 shells. Find $\frac{1}{2}$ of them.

   💡 Hint: To find $\frac{1}{4}$, divide the amount into 4 equal groups.

   2

3. There are 70 toy cars. Find $\frac{1}{10}$ of them.

   💡 Hint: To find $\frac{1}{4}$, divide the amount into 4 equal groups.

   7

4. There are 96 marbles. Find $\frac{1}{8}$ of them.

   💡 Hint: To find $\frac{1}{4}$, divide the amount into 4 equal groups.

   12

5. There are 55 apples. Find $\frac{1}{5}$ of them.

   💡 Hint: To find $\frac{1}{4}$, divide the amount into 4 equal groups.

   11

6. There are 25 books. Find $\frac{1}{5}$ of them.

   💡 Hint: To find $\frac{1}{4}$, divide the amount into 4 equal groups.

   5

7. There are 16 shells. Find $\frac{1}{4}$ of them.

   💡 Hint: To find $\frac{1}{4}$, divide the amount into 4 equal groups.

   4

8. There are 27 beads. Find $\frac{1}{3}$ of them.

   💡 Hint: To find $\frac{1}{4}$, divide the amount into 4 equal groups.

   9

9 There are 16 marbles. Find $\frac{1}{4}$ of them.

💡 Hint: To find $\frac{1}{4}$, divide the amount into 4 equal groups.

4

10 There are 16 flowers. Find $\frac{1}{4}$ of them.

💡 Hint: To find $\frac{1}{4}$, divide the amount into 4 equal groups.
