Name: _____ Date: _____

Grid column method

Write the answer in the box. Some answers have a pick list.

1 In a grid for 34 × 3, the tens cell is 90. What is the ones cell?

💡 Hint: Multiply the ones first, then the tens. Add the parts.

×	30	4
3	90	?

_____

2 In the grid for 23 × 2, the two cells are 20 × 2 and 3 × 2. Fill the first cell.

💡 Hint: Multiply the ones first, then the tens. Add the parts.

×	20	3
2	?	6

_____

3 In the grid for 63 × 6, the two cells are 60 × 6 and 3 × 6. Fill the first cell.

💡 Hint: Multiply the ones first, then the tens. Add the parts.

×	60	3
6	?	18

_____

4 In a grid for 67 × 6, the tens cell is 360. What is the ones cell?

💡 Hint: Multiply the ones first, then the tens. Add the parts.

×	60	7
6	360	?

_____

5 In the grid for 43 × 4, the two cells are 40 × 4 and 3 × 4. Fill the first cell.

💡 Hint: Multiply the ones first, then the tens. Add the parts.

×	40	3
4	?	12

_____

6 In the grid for 33 × 3, the two cells are 30 × 3 and 3 × 3. Fill the first cell.

💡 Hint: Multiply the ones first, then the tens. Add the parts.

×	30	3
3	?	9

_____

7 In the grid for 53 × 5, the two cells are 50 × 5 and 3 × 5. Fill the first cell.

💡 Hint: Multiply the ones first, then the tens. Add the parts.

×	50	3
5	?	15

_____

8 In a grid for 56 × 5, the tens cell is 250. What is the ones cell?

💡 Hint: Multiply the ones first, then the tens. Add the parts.

×	50	6
5	250	?

_____

9 In a grid for 78 × 7, the tens cell is 490. What is the ones cell?

💡 Hint: Multiply the ones first, then the tens. Add the parts.

×	70	8
7	490	?

_____

10 In a grid for 45 × 4, the tens cell is 160. What is the ones cell?

💡 Hint: Multiply the ones first, then the tens. Add the parts.

×	40	5
4	160	?

_____
