Name: _____ Date: _____

Equal parts

Write the answer in the box. Some answers have a pick list.

1. A shape has 5 equal parts. 4 parts are shaded. Write the fraction shaded.
   💡 Hint: Are all the parts the same size? Only equal parts make a fraction.

2. A shape has 3 equal parts. 2 parts are shaded. Write the fraction shaded.
   💡 Hint: Are all the parts the same size? Only equal parts make a fraction.

3. A shape has 4 equal parts. 1 part is shaded. Write the fraction shaded.
   💡 Hint: Are all the parts the same size? Only equal parts make a fraction.

4. A shape has 2 equal parts. 1 part is shaded. Write the fraction shaded.
   💡 Hint: Are all the parts the same size? Only equal parts make a fraction.

5. A shape has 3 equal parts. 1 part is shaded. Write the fraction shaded.
   💡 Hint: Are all the parts the same size? Only equal parts make a fraction.

6. A shape has 8 equal parts. 5 parts are shaded. Write the fraction shaded.
   💡 Hint: Are all the parts the same size? Only equal parts make a fraction.

7. A shape has 4 equal parts. 3 parts are shaded. Write the fraction shaded.
   💡 Hint: Are all the parts the same size? Only equal parts make a fraction.

8. A shape has 5 equal parts. 2 parts are shaded. Write the fraction shaded.
   💡 Hint: Are all the parts the same size? Only equal parts make a fraction.

9. A shape has 10 equal parts. 7 parts are shaded. Write the fraction shaded.
   💡 Hint: Are all the parts the same size? Only equal parts make a fraction.

10. A shape has 8 equal parts. 3 parts are shaded. Write the fraction shaded.
    💡 Hint: Are all the parts the same size? Only equal parts make a fraction.
